Work @ Home

1. Spend time deeply considering one of God’s actions in the past – consider the character that motivated His actions, the power and wisdom needed to execute His plan in His timing and the end result. Consider how this meditation might shape your current mindset and future outlook.
2. Read Habakkuk 3:17-19. Replace the words of v. 17 with things that are more valuable to you personally and would reflect nearly disastrous circumstances. Consider the faith it would require to honestly pray these verses.
3. Reflect on how this journey through Habakkuk has challenged your conceptions of God and suffering. If someone asked you why there is injustice in the world that and good and sovereign God supposedly runs, what would you say?
